The Degree of Doctor of Philosophy (PhD)

These regulations apply to all PhD candidates enrolled from 1 December 2007. Candidates first enrolled at an earlier date continue under the regulations in force at that time (but see Clause 13 for transition provisions).

The degree of Doctor of Philosophy (PhD) is conferred on candidates who have successfully completed the requirements of the degree as set out in these regulations. The degree is awarded to candidates who have successfully completed the requirements of the degree as set out in these regulations. The degree is awarded to candidates who have successfully completed the requirements of the degree as set out in these regulations.

1. Nature of the degree

- The degree of Doctor of Philosophy (PhD) is conferred on candidates who have successfully completed the requirements of the degree as set out in these regulations. The degree is awarded to candidates who have successfully completed the requirements of the degree as set out in these regulations. The degree is awarded to candidates who have successfully completed the requirements of the degree as set out in these regulations.
- The degree of Doctor of Philosophy (PhD) is conferred on candidates who have successfully completed the requirements of the degree as set out in these regulations. The degree is awarded to candidates who have successfully completed the requirements of the degree as set out in these regulations. The degree is awarded to candidates who have successfully completed the requirements of the degree as set out in these regulations.
- The degree of Doctor of Philosophy (PhD) is conferred on candidates who have successfully completed the requirements of the degree as set out in these regulations. The degree is awarded to candidates who have successfully completed the requirements of the degree as set out in these regulations. The degree is awarded to candidates who have successfully completed the requirements of the degree as set out in these regulations.

*The degree is conferred on candidates who have successfully completed the requirements of the degree as set out in these regulations.

Doctorates

the following are added to the research proposal.

The research proposal should be presented in suf-

full- or part-time basis and will pay domestic fees regardless of whether they reside in New Zealand or not.

The report should be submitted to the Head of Department/School who should consult with the departmental/school postgraduate research committee or coordinator of postgraduate research and comment on whether progress is or is not satisfactory, before forwarding the report to the Postgraduate Office for the Dean's approval. It is the Head of Department/School's responsibility to ensure that reports are submitted in accordance with Regulation 7(a) above.

It is important that both candidate and supervisors are candid in their comments made on the progress report forms. It is the responsibility of the Head of Department/Head of School or delegate to emphasise this point within their department/school.

Candidates should first attempt to resolve difficulties within the department/school. Departments/schools are expected to have, and to publish, their own procedures for dispute resolution. These procedures would normally involve the Head of Department/School, the departmental/school postgraduate research committee or coordinator of postgraduate research. If resolution cannot be reached in this way, the candidate should contact the Dean of Postgraduate Research directly. The candidate may seek the advice of the UCSA Student Advocacy and Welfare Team before contacting the Dean.

Based on the recommendations from the examiner, the Dean of Postgraduate Research may require that the thesis be revised and resubmitted after initial submission, prior to

an oral examination taking place.

Any public presentation sought by the department/school is not part of the formal University examination process, and should normally be sufficiently separate from the oral examination to ensure that there is no confusion posed by the two activities.

Normally the international examiner will not be required to participate in the oral examination, but may provide advice on questions to be asked at the oral examination. It is common practice in the oral examination for the oral examiner to lead the discussions.

It is also suggested that the senior supervisor be invited by the chair of the oral examination to put to the candidate the questions submitted by the absent examiner.

... (c) ...

At the request of either the oral Chair or the oral examiner the senior supervisor may be asked to absent themselves during the decision-making at the conclusion of the oral examination.

... (d) ...

Observers invited by the oral Chair to attend may include junior colleagues who are being mentored in the role of thesis examiner and senior colleagues who are invited to provide feedback to the oral Chair for professional development reasons.

... (e) ...

The Chair of the oral examination is responsible for organising the examination, and ensuring that the joint report form is forwarded to the Post-graduate Office. This form should be signed by all the examiners present. If the oral examiner is not present physically but via video- or audio-link then a separate signature must be obtained prior to the awarding of the degree. An electronic signature is acceptable.

examiners' reports be returned within six weeks. The date for the oral examination is to be agreed between the chair of the oral examination, candidate, senior supervisor and oral examiner, at the time of appointment of the examiners. The date of the oral examination will normally be eight-ten weeks after submission of the thesis for examination. The Postgraduate Office will oversee the travel arrangements for the oral examiner, in collaboration with the Chair of the oral examination.

Award Regulations

The Chair of the oral examination is responsible for organising the examination, and ensuring that the joint report form is forwarded to the Postgraduate Office. This form should be signed by all the examiners present. If the oral examiner is not present physically but via video- or audio-link then a separate signature must be obtained prior to the awarding of the degree.

- () A form should be signed by all the examiners present. If the oral examiner is not present physically but via video- or audio-link then a separate signature must be obtained prior to the awarding of the degree.
